### LE LAPIN SAUVAGE

La lapine peut avoir 4 à 10 petits à la fois.

Les petits naissent sans poils, les yeux fermés.

Ils tètent leur mère.

Le lapin mange de l'herbe et des légumes.

Pour échapper aux renards, aux chasseurs et aux chiens, il se réfugie dans son terrier.

Que mange le lapin ?

---

25

Où le lapin se cache-t-il ?

---

26

Comment sont les petits quand ils naissent ?

---

27

Combien la lapine peut-elle avoir de petits ?

---

28

- 1 - Rémi met son joli manteau et ses grandes bottes.
- 2 - Il part sur son vélo, son filet sur l'épaule. Il va pêcher la grenouille.
- 3 - Il pose son vélo près de la mare où vivent les grenouilles.
- 4 - Voilà une grosse grenouille, bien verte, qui ne bouge pas. Il prend son filet.
- 5 - Il s'approche tout doucement, tout doucement, et hop ! Il lance son filet sur elle.
- 6 - Mais il glisse dans une grande flaque de boue. Il se retrouve à plat ventre dedans, nez à nez avec la grenouille étonnée.

Rémi est désobéissant

Léo n'a pas de chance

La pêche à la grenouille

Le vilain canard
